Muhammad Ali Imran

Cyber Security Student | IT & Cybersecurity Enthusiast

Karachi, Pakistan | +92 336 2065801 | alikhan206581@gmail.com | LinkedIn Profile

PROFESSIONAL SUMMARY

Cyber Security student currently pursuing a BS in Cyber Security at Iqra University, with hands-on academic experience in Linux, Bash scripting, Java, networking, system administration, and cybersecurity projects. Familiar with Kali Linux, Cisco Packet Tracer, Windows/Linux environments, and security monitoring concepts. Seeking an entry-level Cyber Security, SOC, IT Security, or IT Support opportunity to apply technical skills and gain practical industry experience.

TECHNICAL SKILLS

Cybersecurity: Cybersecurity Fundamentals, Security Analysis, Security Monitoring
Operating Systems: Linux, Kali Linux, Windows
Programming & Scripting: Java, Bash, Shell Scripting
Networking: TCP/IP, Networking Fundamentals, Cisco Packet Tracer
Web & Tools: HTML, CSS, WordPress, VirtualBox, Microsoft Office
Other: Technical Documentation, Problem Solving, System Administration

PROJECTS

Login Attempt Monitoring & Security Analysis System | Linux Bash + Java Swing

- Developed a security monitoring system for analyzing successful and failed login attempts.
- Implemented repeated failed-login detection and security reporting.
- Added Admin and User roles with different account-management permissions.
- Integrated Bash security scripts with a Java Swing graphical interface.

Linux Attendance Management System | Bash / Linux

- Developed a Linux-based attendance management system using Bash scripting.
- Implemented Present/Absent records and saved attendance history.
- Applied shell scripting concepts for data management and automation.

Cybersecurity Portfolio Website

- Designed a professional portfolio website showcasing cybersecurity skills, projects, and academic work.
- Focused on cybersecurity, networking, and information security.

Java OOP Project

- Developed a Java project demonstrating classes, objects, encapsulation, inheritance, constructors, getters, and setters.

INTERNSHIP EXPERIENCE

Web Developer Intern — Cubeatech | Currently Working

- Currently working as a Web Developer Intern at Cubeatech.

Pakistan Career Fair (PCF) Internship Programme — Batch 04

- Successfully completed a 6-week internship programme in collaboration with Skills4U.
- Duration: 25 August – 6 October 2026.

EDUCATION

- BS Cyber Security — Iqra University, Karachi (2025–Present | 3rd Semester)
- Intermediate — PECHS Government Degree Boys College (2023–2024)
- Matriculation — Uloom n Hikmah Islamic School (2022)

ADDITIONAL EXPERIENCE

Aircraft Maintenance Engineering Trainee — EASA Part-66 B1.1 | Aviotrace Swiss

- Gained practical exposure to aircraft inspection and maintenance procedures.
- Worked with aircraft including Cessna 152 and Piper Cherokee.
- Developed strong attention to technical procedures, documentation, safety, and detail.

COURSE

Graphic Designing Course | March – May 2025

CORE STRENGTHS

Problem Solving | Technical Learning | Communication | Teamwork | Attention to Detail | Adaptability

CAREER TARGET

Entry-level opportunities in Cyber Security, SOC, IT Security, IT Support, and Junior IT.
